

# Engineers for a Sustainable World, UCSD

Are you interested in working on projects aimed at improving sustainability on our campus, around San Diego, even around the world? Are you interested in networking with your peers and professional contacts regarding sustainability? Are you looking for ways to improve your resume and gain access to further education?

## Join Engineers for a Sustainable World!

---

We cordially invite you to our **first GBM of the Quarter**.

When: **TOMORROW! Thursday, April 7th at 7:30PM**

Where: **Center Hall 222**

Highlights:

### 1. Projects

- a. Biomatrix – Reducing environmental impact of laboratory freezers
- b. Thailand – Development of multiple facets of life in a Thai village
- c. BAAN – Producing and improving extraction of Biodiesel from coffee
- d. Solar Charging Station

### 2. Outreach

- a. Community garden composting development
- b. Preuss School Composting and Sustainability Education
- c. Grid Alternatives – installing solar panels on low income homes

### 3. Education

- a. Industry level seminars

### 4. Social and Volunteer events!

Come check out these amazing opportunities. Stick around after the meeting to ask questions and mingle with the officers and other members.

**All majors are encouraged!**

Sincerely,

The Officers of ESW, UCSD
